Prepared By:
Town Manager
Patrick K. Niland

Pursuant to Section 159-11 of the North Carolina General Statutes, the Town of Wingate's proposed budget for the fiscal year beginning July 1st 2013 and ending June 30th 2014 is submitted for your consideration. This budget represents a progressive and ambitious plan to not only increase the quality of life for citizens, but also improve the conditions under which economic development can thrive. In order to move forward in our goal to create a "college town" we must first improve the infrastructure as noted in the Rose Report. This report has provided a number of realistic benchmarks that the town can complete in order to increase our chances of attracting private development. To accomplish our goals all of the following areas will be addressed in FY2013-2014.

- Sidewalk Construction Projects
- Street Beautification Projects
- Continued Land Acquisition for the comprehensive Greenway System
- Both On & Off Street Parking Areas
- Continued implementation of the Branding Initiative
- Comprehensive Water & Sewer Rehabilitation

When planning for the future it is important to have a long term goal, but it is more important to have a series of "small victories" that can be achieved in a short period of time. Momentum is key to success, it is not necessary how quickly a project moves, but it is critical that these projects continue to move. These "small victories" will give the community tangible assets, it will also achieve our commitment to improving this community.

During FY2012-2013 the Town of Wingate has experienced many signs that this momentum has begun. The addition of the pharmacy located on HWY 74 will be a huge asset to the community; this is the type of business that can act as a catalyst to attract more small business to the area. Along with the pharmacy, Fern Shubert has begun the process of restoring the buildings located on the southwest corner of North Main Street and Wilson Street. This is the first block that the town has identified as a prime redevelopment location. We plan to address parking, beatification, pedestrian safety, and general aesthetic improvements. Parking is and will always be one of the most important factors to plan for. Without sufficient parking it is hard to spur economic development. This budget reflects the necessary steps to improve parking in and around the intersection of North Main Street & Wilson Street.

This budget is also presented at a time when there is a level of uncertainty regarding local governments. Currently there have been several bills introduced in Raleigh that would either eliminate, alter or change the way revenue is collected and distributed. It is very difficult at this point to determine which bills may pass and which will not. Since none of the bills that would have a direct impact to the town have been approved, this budget is being presented to reflect that lack of change. Depending on the outcome of these bills it may become necessary at some point in the coming fiscal year to amend both revenue and expenditures.

Patrick K. Niland
Town Manager

General Fund

The General Fund consists of police, public works, recreation, streets, planning, and zoning. At the end of FY2012-2013 the Town of Wingate had unrestricted fund balances in the general fund totaling \$411,758. This is money that is not required by the state and it is not earmarked for a specific purpose. For FY2012-2013 we do anticipated having to use approximately \$45,000-\$60,000 of that amount to balance the budget. In addition to the Rose Study, the town contracted to have our Code of Ordinances updated/digitized, a space needs study was conducted to determine the long term facility needs of the town, land acquisition has begun for the purpose of developing the Wingate Greenway, we had our website redesigned and many capital purchases that had been put off were made. These are one time expenditures, they will not be included in the FY2013-2014 budget.

Although adequate to meet state statues our fund balance is lower than would be considered ideal. It is important to realize that all of these expenditures are an investment in the towns future. They are all tools the town now has at its disposal to meet our long term goals . As stated before it is important to generate momentum and keep it; using fund balance to supplement the budget is not a practice that is recommended but sometimes necessary. This budget includes a \$19,617.50 contingency line item; if this line is not used during the course of the fiscal year it will be added to the general fund balance. It is my goal to increase fund balance levels until we meet 50% of the total operating budget.

We anticipate seeing a slight increase in property tax collections for FY2013-2014, this is due to development that is either underway or scheduled to begin next year. Based on the North Carolina League of Municipalities projections we anticipate seeing a slight increase in both sales tax collections and all utility taxes. There are a few new revenues that have not been included in previous years budgets. The ABC board has projected that they will be able to distribute \$10,000 in next year's budget to the town. I have also included recreation fees to reflect the town taking over youth recreation.

Expenditures have been assigned into departments that reflect the nature of their use. The proposed general fund budget for FY2013-2014 is projected to be **\$1,595,850**; this is 29% higher than the budget that was approved

for FY2012-2013. This is a significant increase and can be attributed to the several capital projects the town plans to begin construction on in FY2013-2014. This increase will not affect the tax rate which will remain at \$.39/100 valuation.

Administration

For FY2013-2014 the administration department remains largely unchanged. A 2.5% across the board Cost of Living(COI) increase has been budgeted for all employees. Also proposed is a 1.5% increase in the 401(k) contribution to non-law enforcement officers. This would bring the towns total contribution to 4%, police officers currently receive a 5% contribution to their 401(K).

Recreation

During FY2012-2013 the Town of Wingate took over what was Wingate Recreation Association. This program offers youth recreation activities to the surrounding area. Since taking the program over we have implemented mandatory insurance for participants, background checks for volunteers, a scholarship program to help with underprivileged kids, equipment improvements, and field improvements. This program is not yet self-supporting and it is the goal of town staff to have the

program support itself by the end of FY2013-2014. We plan to accomplish this through a combination of user fees, grants, and sponsorships. We have identified several grant opportunities and are currently developing a plan to attract sponsors to the program. As the program grows it may be necessary to hire additional personnel to assist with the program. This is not something that will be implemented until the program can support itself, this goal is to operate this as an enterprise fund that does

not rely of support from the general fund.

This budget also includes a reduced appropriation for the Summer Fun Festival. The budget for next year's festival is \$15,000 compared to \$20,000 for FY2012-2013. We are confident that we will be able to offer the same experience, we can reduce cost by what we have learned in the first two years. We will also be able to use more supplies for multiple years.

Police

During FY2012-2013 we lost three police positions, two patrol officers and the Police Chief. For the next fiscal year we only plan to fill two of those positions; the Police Chief and one Patrol Officer. The police department is funded by a combination of the general fund and an appropriation the university allocates every year. This amount, \$65,000, accounts for approximately 12% of the total police

department budget . As both the town and university grow it is important to maintain an appropriate staffing level to ensure uniform and constant police protection. Unfortunately revenues have not kept pace with expenditures and until we come up with a long term solution we will not be able to fill the vacant patrol officer. We are working with the university to try and formulate a long term agreement that would allow the town to continue to provide the level of service we have for the past several years. Until an agreement is worked out with the university we do not anticipate adding any additional positions. Once a new chief has been named we will work to expand our part-time police force. Part-time officers are no substitute for a full time officer but they will allow us to continue offering what we feel is an acceptable level of service. We will not be replacing a patrol vehicle this year.

Fire

For FY2013-2014 the town has earmarked \$20,000 for the Fire Department; this amount remains unchanged from FY2012-2013. The Fire Department is a volunteer department that relies on fire fees, subsidies, and donations to operate. We have been working very closely with the fire department to come up with a long term solution to funding a new building and the impending vehicle purchases that must be made in the near future. A space needs study was completed during FY2012-2013; this has identified what capital improvements the fire department will need for the next 50-75 years.

Powell Bill

Almost all of the capital projects the town has for FY2013-2014 will come from the streets department. Every year we are given an appropriation by the state to use specifically for maintaining our streets and sidewalks. At the end of FY2012-2013 our fund balance for Powel Bill funds was \$236,031, we will use approximately \$30,000 of this in FY2012-2013. For FY2013-2014 we are using approximately \$109,000 to fund the projects in Appendix A. We will also receive \$240,000 from the North Carolina Department of Transportation to complete the Safe Routes to School(SRTS) Project and The Main Street/Haskins Drive enhancement project. These projects will provide intersection improvements, sidewalk improvements, pedestrian crossings, and potentially the addition of street lighting on North Main Street, Maye Street, Haskins Dr, & Bivens Street. In addition to the SRTS and the Main Street/Haskins Drive projects, NCDOT has agreed to install a pedestrian signal at the intersection of HWY 74 & Main Street. Once we complete the necessary sidewalk improvements NCDOT will come in and complete the work for the signals. NCDOT is also planning on improving the crosswalks and signage at HWY 74 & Main Street. This intersection has seen increased traffic in recent years and with the plan to develop the area into a "college downtown" we need to take steps to improve pedestrian safety. We will be using a significant portion of our Powell Bill Fund balance to fund these projects. Powell Bill Funds can only be used for certain activities, sidewalk construction is one of those allowed uses.

Water & Sewer Fund

The total proposed budget for the water and sewer fund is \$1,476,000. The water and sewer fund is self-supporting in that it does not rely on an appropriation from the general fund. This is accomplished through user fees, tap fees, and capacity fees. This budget includes a 8% water rate increase and an 18% sewer increase for residential users with a $\frac{3}{4}$ " meter. A residential user that uses 5,000 gallons a month is currently paying \$60.44 for water and sewer combined; with the increase that same user can expect to pay \$69.37 for FY2013-2014. These rate increase apply only to $\frac{3}{4}$ ", 1", and 1½" residential users. Users with larger meters will see an increase of 13% for water and 23% for sewer.

Union County notified the Town of Wingate May 28th that we should expect our sewer rates to increase approximately 50% starting July 1st 2013. Unfortunately with the lack of notice the town has no choice but to raise our rates significantly to cover the additional cost.

We have taken every step to minimize what increases we have to pass on to the consumer. These rate increases are necessary for two main reasons: 1) Union County made the Town of Wingate aware that it was increasing our sewer rates significantly and, 2) to pay for the added debt service that has been taken on for the continued rehabilitation of the water and sewer system.

The town has invested approximately \$5,000,000 over the past three years in the rehabilitation of our wastewater sewer lines. Some of these lines are in excess of 60 years old. They are currently susceptible to rainwater inflow and infiltration (I/I). This surge of rainwater causes the system to purge itself, every time this happens the town

faces a potential fine from the North Carolina Department of Natural Resources. By reducing I/I we will reduce the potential for future fines, we will also avoid paying treatment cost for this I/I.

While a significant portion (\$3,000,000) of this expense has been paid for by grants, the town has had to take out loans for the remaining amount. In addition to the \$5,000,000 invested in sewer, the town plans to spend approximately \$2,000,000 in the next 2 years replacing waterlines. Most of the waterlines that are scheduled to be replaced are 2" galvanized water lines that have become corroded and brittle. Much like the sewer these lines have been in service for more than 60 years. As part of the waterline replacement we will be increasing the size of the lines to 6" PVC pipe; this pipe is a larger diameter and has a longer useful life. A few additional benefits from this project are increased fire protection and additional capacity. Another reason for these improvements will be the addition of redundancies in the system. Once construction of this project has finished, if we have a leak, we will not have to shut off entire sections of the town's water system. It will allow us to isolate the leak to a relatively small area. While this project will not entirely eliminate the possibility of leaks it will reduce the widespread outages we have seen in recent years.

Interest Income, Sewer	\$500
<u>Fund Balance</u>	<u>\$1,000</u>
	\$ 1,476,000

SECTION 4: The following amounts are hereby appropriated in the Water and Sewer Fund for the operation of the water and sewer utilities for the Fiscal Year beginning July 1, 2013, and ending June 30, 2014:

Water Department

Salaries	\$229,685.70
Maintenance & Repair	\$19,000
Utilities	\$7,000
Supplies & Meters	\$6,000
Water Testing	\$6,000
Water Purchased	\$256,000
Professional Services	\$10,000
Tank Repair	\$17,700
Unemployment Claim	\$11,000
Transfer To General Fund	\$15,000
Billing Postage	\$4,000
Liability Insurance	\$10,000
Miscellaneous	\$4,000
Operations	\$37,150
Capital Outlay	\$10,000
Debt Service	\$60,000
	\$702,535.70

Sewer Department

Salaries	\$229,685.70
Maintenance & Repair	\$13,700
Utilities	\$18,383.40
Supplies	\$4,000
Wastewater Treatment	\$335,000
Professional Services	\$8,545.20
Unemployment	\$11,000
Capital Outlay	\$10,000
Operations	\$44,650
Miscellaneous	\$2,500
Debt Service	\$96,000
	\$773,464.30

Total Water & Sewer Fund Expenditures **\$1,476,000**

SECTION 5: There is hereby levied a tax at the rate of thirty-nine cents (\$.39) per one hundred dollars (\$100) valuation of property as listed for taxes as of January 1, 2013, for the purpose of raising the revenue listed as "Ad Valorem Taxes" in the General Fund in Section 1 of this ordinance. This rate is based on a total estimated valuation of property for the purposes of taxation of \$127,889,081 and an estimated rate of collection of 97%.

SECTION 6: The Town Manager (Budget Officer) is hereby authorized to transfer appropriations as contained herein under the following conditions:

- A. He may transfer amounts between objects of expenditure within a department without limitations. If the transfer exceeds \$3,000, then the Town Manager shall report the transfer to the Board of Commissioners at the first regular meeting that occurs after the transfer takes place.
- B. He may transfer amounts up to \$1,000 between departments of the same fund with an official report of such transfers being given at the first regular meeting of the Board of Commissioners that occurs after the transfer takes place.
- C. There may not be a transfer of any amounts between funds, from a contingency fund, or any non-appropriated expenditures within any fund without approval from the Board of Commissioners.

SECTION 7: The Town of Wingate Schedule of Fees as shown on Attachment A is hereby adopted in conjunction with the 2013 – 2014 Fiscal Year Budget. The Town of Wingate Privilege License Schedule as shown on Attachment B is hereby adopted in conjunction with the 2013 – 2014 Fiscal Year Budget. The Town of Wingate Schedule of Fees and Privilege License Schedule shall remain in effect until amended or repealed by the Board of Commissioners. The Board of Commissioners may amend the Town of Wingate Schedule of Fees and Privilege License Schedule from time to time as it sees fit.

SECTION 8: Copies of this Budget Ordinance shall be furnished to the Finance Officer and to the Budget Officer of this Town to keep on file by them for their direction in the disbursement of funds.

Adopted this the 18th day of June 2013

Bill G. Braswell, Mayor

Attest:

Karen Wingo, Town Clerk
